

Rain water outlets

DETAIL SHEET 8

Grating/Rooster

Notes:

- 1 Sufficient outlets must be provided in relation to the size of the catchment area and the expected rainfall.
- 2 The diameters of the downpipes must be sufficient to cope with the expected water.
- 3 Carefull attention must be given to dressing the waterproofing system into the rain water outlet.
- 4 Rain water outlets must never be situated in or through an expansion joint.
- 5 All outlets must be supplied with hail/leaf guards to prevent blockage.
